ORBE

Orbe is a modular collection of sofas and armchairs. The sofa's foundational base supports a high, cantilevered backrest that extend beyond the seat, creating a sense of depth to accommodate marble or cast aluminium "rocks".

Designed as a system, Orbe allows users to customize its configuration, adapting seamlessly to diverse spaces and need.

THE DESIGNER

Anthony Guerrée is a French designer, born in Normandy in 1987. He lives and works in Paris. As a designer, he has always worked closely with artisans, exploring high-quality craftsmanships and the history of French decorative arts.

Anthony Guerrée was educated at the École Boulle in Paris. Fascinated by the interior designers of the '30s, Anthony joined Studio Andrée Putman, in 2010, where he was able to work with the best 'makers' in the world in shaping world-class interiors. In 2015, Anthony went to work for designer Christophe Delcourt, assisting him in designing his Delcourt Collection furniture, as well as contributing to Christophe's collaborations with French and international brands.

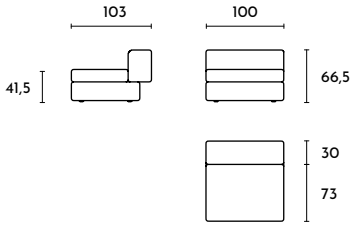

In 2020, Anthony Guerrée ventured out on his own and developed a unique signature, inspired by his travels, personal interactions and literary encounters.

MAINTENANCE

SOFA MAINTEANCE

Check with the fabric manufacturer for cleaning requirements.
Never apply any solvents.

MARBLE MAINTENANCE

Always use a microfiber cloth and rub lightly. Never apply any solvents.
Marble is a natural material. Variations of patterns and hues occur from a piece to another.

ALUMINIUM MAINTENANCE

Always use a soft cloth and gently rub to remove fingerprints or handling marks from the aluminum. Never apply solvents.

A slight change in the aluminum's tint is a normal reaction to prolonged exposure to sunlight. Aluminum is a soft material that can scratch when in contact with harder or protruding materials such as steel, certain woods, shoe soles, or table legs. Be careful not to expose aluminum products to excessive and sudden heat sources such as radiators or fireplaces. Avoid placing the chair in damp rooms or outdoors.
