

## Terra Plastered Side Table

The Terra Plastered Side Table is designed to appear as though it has been carved from a single block of stone, bringing a raw, elemental beauty to any space. The high-quality Belgian microcement used in the finish provides a mineral look reminiscent of waxed concrete, smooth concrete, and Tadelakt.

The faceted geometric top adds a modern sculptural edge, while the sturdy slab legs ensure rock-solid stability. Subtle variations and tool marks on the textured surface make each piece truly one of a kind.
